

THERE IS HOPE

HIV/AIDS is a frightening disease. But there is hope! Hope that new infections can be prevented. Hope that medical treatment and healthy living can extend life, even if infected. And hope for eternal life in Jesus Christ!

Ask God to help you make good sexual decisions. Ask Him to forgive your sins; place your trust in him and He will give you eternal life.

“For God so loved the world that he gave his one and only son, that whoever believes in him shall not perish but have eternal life” (John 3:16).

Assemblies of God

YELLOW CARD WARNINGS
